

## NEWS RELEASE

### Teijin Launches Website to Showcase Sustainable Mobility

Tokyo, Japan, July 27, 2021 --- [Teijin Limited](#) announced today that it has launched the [Teijin Sustainable Mobility](#) website to comprehensively introduce the company's initiatives for a more sustainable society including its partnership with the Formula E (all-electric) racing team [Envision Virgin Racing Formula E Team](#) and Teijin Group's technologies that help reduce the environmental impact of automobiles.

Teijin is strengthening its position in the automotive industry as it develops medium- and long-term opportunities in the field. The new, bilingual (English/Japanese) website introduces Teijin's partnership with Envision Virgin Racing and promotes the group's related sustainability efforts, including its automotive technologies and solutions engineered to reduce environmental impact. It also provides convenient links to the Teijin business groups focused on these technologies:

- [Teijin Aramid B.V.](#) (Arnhem, Netherlands)  
-- Tires, hoses, brake pads and transmissions
- [Continental Structural Plastics Holdings Corporation](#) (Auburn Hills, U.S.A.)  
-- Battery enclosures, pickup boxes and body panels
- [J.H. Ziegler GmbH](#) (Baden- Württemberg, Germany)  
-- Nonwovens for high-quality car seats and nonwoven acoustic absorbers

To ensure relevance for automotive-industry stakeholders, the website's design and content were developed through consultation with members of Teijin's group companies in Japan, U.S., and Europe. In the future, the Teijin Sustainable Mobility website will be further enhanced with new content, including solutions for polycarbonate resin glazing and carbon fiber.

Teijin has a long-term vision of becoming a company that supports the society of the future and has established long-term goals for internal net-zero emissions by fiscal 2050. With an aim to significantly reduce CO2 emissions across its entire supply chain, the

company will make the amount of avoided emissions by use of its products larger than actual emissions groupwide and its upstream supply chain by 2030.

Envision Virgin Racing has been competing in the all-electric race series [ABB FIA Formula E World Championship](#) (Formula E) since its inception. Teijin and its partners have been working with Envision Virgin Racing to develop lightweight, high-performance automotive components, leveraging the freedom of design that will be required for next-generation mobility. Teijin is also using initiative to raise awareness of its brand in the automotive world.

### **About the Teijin Group**

Teijin (TSE: 3401) is a technology-driven global group offering advanced solutions in the fields of environmental value; safety, security and disaster mitigation; and demographic change and increased health consciousness. Originally established as Japan's first rayon manufacturer in 1918, Teijin has evolved into a unique enterprise encompassing three core business domains: high-performance materials including aramid, carbon fibers and composites, and also resin and plastic processing, films, polyester fibers and products converting; healthcare including pharmaceuticals and home healthcare equipment for bone/joint, respiratory and cardiovascular/metabolic diseases, nursing care and pre-symptomatic healthcare; and IT including B2B solutions for medical, corporate and public systems as well as packaged software and B2C online services for digital entertainment. Deeply committed to its stakeholders, as expressed in the brand statement "Human Chemistry, Human Solutions," Teijin aims to be a company that supports the society of the future. The group comprises more than 170 companies and employs some 20,000 people across 20 countries worldwide. Teijin posted consolidated sales of JPY 836.5 billion (USD 7.7 billion) and total assets of JPY 1,036.4 billion (USD 9.5 billion) in the fiscal year that ended on March 31, 2021.
